Descriptions

A well toned office wall design that has a shade of green, This will help with mindfulness, creativity and relaxation, I've used a dark tone wood for the interior cupboards and tables. This visually strong color resembles authority and influence. Combined in the right setting this will be a perfectly suitable office for a Leader.

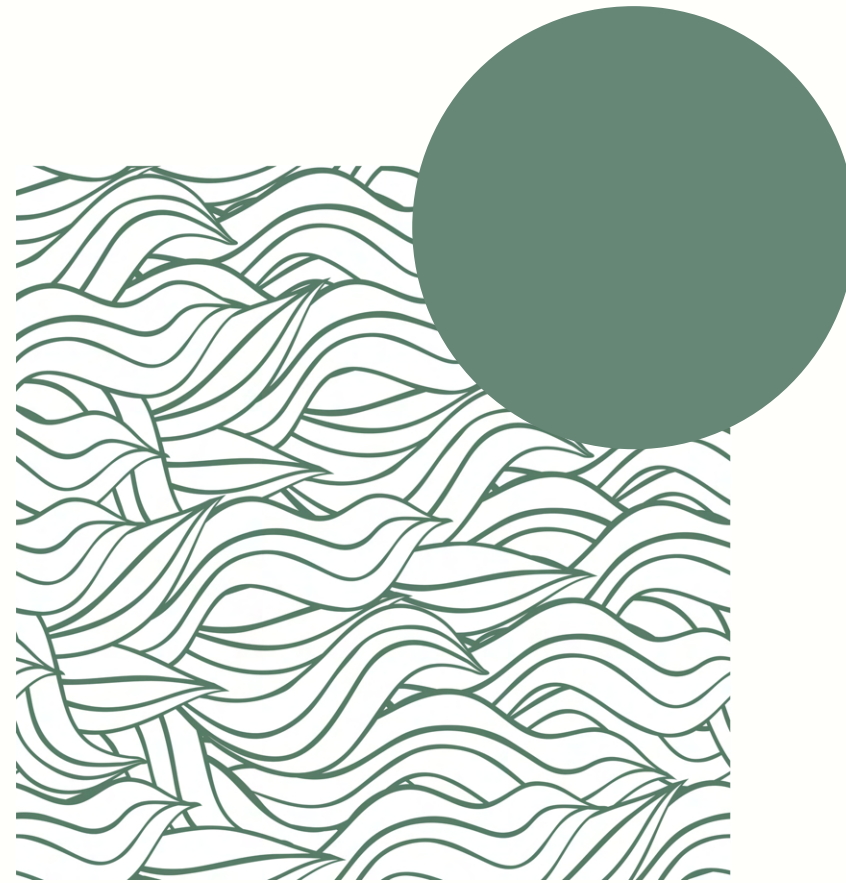

Corridor design:

This multipurpose area can be seen as an enriching space. Grounding you to the destination with wallpaper of Johannesburg city.

Greenery can be used with the neutral colors to add accent in the area. Not too many colors are used in the design as it can be too distracting.

Studio Lounge:

A very small area with light colors to make it look bigger, A big chesterfield with dark color as focal point. Large painting that will create depth as an illusion.

Materials

Material 1

Maidenwood PG -Bison

The Design

An office design with prestigious interior to create an environment where ideas have freedom to multiply and grow, making this space an important resource for innovation.

The Design Studio Lounge

With a minimalistic, practical yet elegant sense of style. The design was motivated by the clients love for modern natural - yet timeless colors. This Interior will be done in neutral colors and natural colors as the focal points.

The Design

Corridor New Building

Easy sense of flow

A motivational space for staff to interact, Relax and enjoy a coffee whilst brainstorming. A key aspect to help remember work material.

Elegance

The design is created with hard textured materials, Coffee station to be equipped with plugs and shelving. Access to be easy and effective. Yet secluded visually.

Our Vision

Easy sense of flow

The space planning layout allows the client to move easily in the office, with minimal/ no obstacles. desks and Chairs withing close proximity from one another.

Elegance

The design is created with matt/textured in natural tones, undermount lighting, refined silver handles. Together this creates a tasteful and timeless office space.
